

Issue name 1: runtime: TestPingPongHog fails randomly  
Issue Link 1: <https://github.com/golang/go/issues/52421>  
Issue name 2: bufio: scanner does not work if you pass a structure item as an argument  
Issue Link 2: <https://github.com/golang/go/issues/52420>  
Issue name 3: cmd/cgo: request to backport loong64 cmd/cgo CL 342305 to 1.18 branch  
Issue Link 3: <https://github.com/golang/go/issues/52419>  
Issue name 4: Error with Building Code with Generics Using Build Tags  
Issue Link 4: <https://github.com/golang/go/issues/52418>  
Issue name 5: x/pkgsite: improve package notes headers  
Issue Link 5: <https://github.com/golang/go/issues/52417>  
Issue name 6: proposal: errors: func wrap  
Issue Link 6: <https://github.com/golang/go/issues/52416>  
Issue name 7: net: TestConnClose failure with "connect: connection refused" on netbsd-arm-bsiegert  
Issue Link 7: <https://github.com/golang/go/issues/52413>  
Issue name 8: net/http: apparent deadlock in TestTransportMaxPerHostIdleConns on netbsd-386-9\_0  
Issue Link 8: <https://github.com/golang/go/issues/52412>  
Issue name 9: reflect: support array pointer in Value.Len()  
Issue Link 9: <https://github.com/golang/go/issues/52411>  
Issue name 10: x/vuln/cmd/govulncheck: TestCommand failures with mismatched exit codes and no other output  
Issue Link 10: <https://github.com/golang/go/issues/52410>  
Issue name 11: time: TestTruncateRound failure on windows-amd64-race  
Issue Link 11: <https://github.com/golang/go/issues/52409>  
Issue name 12: x/tools: failures with junk at end of line: on linux-s390x-ibm  
Issue Link 12: <https://github.com/golang/go/issues/52408>  
Issue name 13: go/internal/srcimporter: failure in TestImportStdLib and TestImportCgo with exit status 1 on linux-s390x-ibm  
Issue Link 13: <https://github.com/golang/go/issues/52407>  
Issue name 14: cmd/go: build fails with sym links ("no Go files")  
Issue Link 14: <https://github.com/golang/go/issues/52406>  
Issue name 15: x/pkgsite: package removal request for <https://github.com/Bandwidth/go-bandwidth>  
Issue Link 15: <https://github.com/golang/go/issues/52405>  
Issue name 16: os: hostname path hardcoded as /bin/hostname in test  
Issue Link 16: <https://github.com/golang/go/issues/52402>  
Issue name 17: cmd/compile: internal compiler error: panic: nil node incrementing const  
Issue Link 17: <https://github.com/golang/go/issues/52401>  
Issue name 18: spec: omit implementation discussion from integer operators section  
Issue Link 18: <https://github.com/golang/go/issues/52398>  
Issue name 19: proposal: spec: infer function type parameters from generic interface arguments if necessary  
Issue Link 19: <https://github.com/golang/go/issues/52397>  
Issue name 20: cmd/go: go mod get unexpected EOF even though can git clone

Issue Link 20: <https://github.com/golang/go/issues/52396>

Issue name 21: runtime: mexit leads to SIGSEGV due to g.m becoming nil

Issue Link 21: <https://github.com/golang/go/issues/52394>

Issue name 22: cmd/compile: cannot parenthesize embedded type

Issue Link 22: <https://github.com/golang/go/issues/52391>

Issue name 23: cmd/compile: Support make jobserver for dynamic negotiable  
concurrency during compilation

Issue Link 23: <https://github.com/golang/go/issues/52387>

Issue name 24: reflect: can set map elem with string key of a different string type [1.18  
backport]

Issue Link 24: <https://github.com/golang/go/issues/52386>

Issue name 25: x/tools/gopls: can't enable semantic tokens from Emacs lsp-mode

Issue Link 25: <https://github.com/golang/go/issues/52385>
